Thermal Temperature Station

DAHUA DHI

Model:

TS92

- With EARPHONE
- Vibration ALARM
- Desensitize Button
- LED Light Alarm
- Audio Alarm

FEATURES

- Display: 7" capacitive screen
- Temperature Screening & Access Control
- Temperature Measurement Range up to 6'
- Face Mask Recognition
- Dual 2MP Sensors

FEATURES

- A Red LED lights when the detector detects metal.
- Pressing and holding the Desensitize button reduces the detector's sensitivity by about 50 percent, so you can scan for example near floors which contain large amounts of steel rebars, or scan in the places where only larger objects are required to be detected.
- The earphone jack lets you connect the earphone to the detector so that you can scan in privacy.
